Houston, TX 77063

Dear Don and John:

I would like to thank both of you on behalf of Bluebonnet Nutraceutical, Ltd. for the fine job you did on our recent Construction Project. We are very pleased with the quality of the final product, which came in at the budget target and near the time estimate.

We recognize that this was a complex project to convert an existing building into a state-of-the-art vitamin-manufacturing complex. Several features such as the internal recirculating dust control system and room humidity control were accomplished with leading edge technology in both methods and efficiency. A further challenging facet of this project was that several very large pieces of equipment required that the rooms be built around them after they were set in place. Lastly, all was handled well in spite of several design changes we made after construction had started.

Your experienced handling of the project financing, development, construction and inspection are all greatly appreciated. We look forward to working with you both on future projects.

Sincerely,

Robert L. Barrows  
Executive Vice President
