RE: ICOTEX Project – Conroe Park North

Dear Eric:

I want to extend my personal thanks to you and Mr. Don Dennis for the work your team has completed on the ICOTEX project here in Conroe for Jungheinrich. There have been a lot of moving pieces with this one and you folks have responded in a very positive manner at every step to the way. It is hard to believe we were breaking ground in February and they are moving equipment into the plant and beginning their hiring process.

I know the planning and engineering departments have been more than pleased with your team on the ground during inspections, permitting and getting to the final completion. I look forward to working with the Archway Property team on future projects.

Best to you and your team.

Sincerely

Fred H Welch  
CEcD, EDFP
