

June 29, 2005

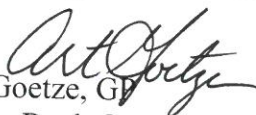

To Whom it May Concern:

Archway Properties consulted with us in the development of a new facility for our business operations. The project involved the acquisition of land, as well as the planning and development of a building.

Archway was very instrumental in insuring that our development process got off to a good start by assembling a team of experienced professionals and coordinating the numerous meetings and issues that we confronted during the planning, design and development of the facility. Don and John are both very knowledgeable in the entire development process, which benefited our project in many regards.

We are very pleased with Archway's involvement in our project and would recommend them to any company that is considering the development of a commercial facility.

I would be pleased to address any inquiries for further reference questions that you might have in regards to our experience with Archway Properties.
