December 13, 2002

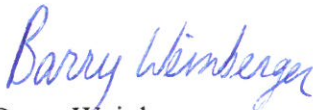

Dear Don and John,

I would like to let you both know that Ben and I are extremely pleased with our new warehouse. The project came in around the budgeted price and near the time estimate.

Don, very early on, Ben and I were choosing from two builders and two developers to award the project to. We both were very impressed with your credentials, and felt good about the prospects of you handling what was a huge undertaking for us. John, you always stayed on top of the many issues involved with this project and followed through each time something needed to be done.

All in all, looking back, there is no question Westheimer made a wise choice by choosing Archway for this project. It has been a pleasure working with both of you, and I wish you the best of luck on future projects.

Very truly yours,

Barry Weinberger
Chief Financial Officer
